

AL-MBS Beverage/Food Can Saw/Cutter

Easy metal debris removal
Our newly designed Built-In Trash
Bin pulls out easily

At **AdvanceLab**, we always put operator's **Safety** at **Highest Priority**. Full featured safety designs such as :

- Automatic Power Shut-Off if the equipment cover is opened for servicing, and during Cutting Blade replacement
- Totally enclosed Cutting Blade, noise-eliminating heavy duty stainless steel enclosure, and highly visible Caution sign by cutting area
- **Energy Efficient** advanced design, with on-demand motor Turn-On only if a can is inserted for cutting, Turn-Off as can is retracted
- Easy removal of debris by just withdrawing the Trash Bin in back , no need to remove the heavy and cumbersome cover
- Innovative user-friendly **Single Hand** operation: the instrument starts automatically when a can is inserted, reducing user fatigue, while at the same time allowing the user to concentrate on making a good quality cut of the can, unlike other equipment designs where a second hand or foot switch is required

Technical Details

single hand cutting operation	dual high speed carbide cutting blades	high speed 1410 RPM Motor
on-demand cutting only motor activation	211(∅2-11/16"-66mm) beverage can or other can sizes	easy cutting debris removal
110/ 220 VAC ; 5 amps ; 50/60 Hz
