

Tension Testor

Pilfer-Proof Testor

Compression Tester

High Precision Linear Actuation
Ball-Screw Motion Control.

Electronic Motor Speed Controller
offers Reliable and Steady
test runs time after time.

Full function accurate Force Gauge
produces precise load readings
with lb, kg, or N(ewton) selections
200 lb(100 kg) standard Load-cell,
500 lb(250 kg) or others optional.
Peak Hold/Memory registration.

Independent Start-Stop-Jog and
Up or Down directional Controls;
switches to set testing Position.

Multi-Mode Operations

Manual
Automatic
Single Cycle
Continuous Cycle

Optional :

Electronic Height Gauge lets user
pin-point, diagnose exact position
of Maximum Load, and point
of bottle deformation.

Additional software
analyze and plot graph
of full bottle loading profile.

RS-232 PC computer interface
for data logging and controls.

**Bottle Top-Load Compression Crush Tester
ATC-2**

Shipping Weight : 112.5 lbs (51 kg) • Packing : 20.7"(52.5cm) x 18.7"(47.5cm) x 37"(94cm) • Net Weight : 90 lbs (41 kg)
